Mr. and Mrs. Ernest H. ROTARIANS TOLD OF HANSON'S TRIP

Member Recently Returned From South Sea Islands Talks Interestingly

Listening to G. A. Hanson tell of the long trip he and Mrs. Hanson recently took to the South Sea islands made them envy the interesting trip. Mr. Hanson told of it at Rotary luncheon this noon, also passing around interesting pictures and handiwork of the natives for the members and visitors to see. From Victoria, B. C., to Honolulu they had among other passengers on the boat the Australian Boys League, who attended the dedication of the Madonna of the Trails monument in this city, one of the boys dying on the ship and being buried at sea.

Mr. Hanson characterized Samoa as the most beautiful and most progressive of these islands. American made automobiles far outnumber those of any other manufacture because of their lasting qualities, lesser weight and because they consume less gasoline. Gasoline is one of the most expensive articles in the islands, costing about 62c per gallon. On account of transportation cost and taxes cars selling here for about $1400 retail there for $2600 to $2700.

Having practically no clothing on, natives of the Fiji islands decorate their person by painting their navels in very bright colors —red, green, etc. Mr. Hanson did not cover nearly all his trip and his talk proved so interesting it was decided that he be given another meeting to finish his narrative.

James Black was appointed captain of the club golf team and Kenneth Hanson will officiate in similar capacity for the bowling team.

OFFICERS GET HUGE STILL IN UPLAND SEARCH

Operators Made Get-Away Before Officials Entered the Premises Friday

EQUIPMENT ALSO IS GONE

Thought Members Large Bootlegging Gang in Southern California

A huge still, the largest ever taken in this part of the country, was seized by officials after a raid on the premises at Baker avenue and Arrow route in the extreme east part of Upland. The residence was rented Sept. 16, and Officer Lehman of this city first saw maneuvers which convinced him what was in progress. A watch was kept on the place and it is said the still was in operation at 2 o'clock last Friday morning. However, a raid was not made until later in the day and it appears that the guilty parties in some way "got wise" they were being shadowed, as most of the apparatus was removed before officers started their search. The place was also minus of any people and the still was later found in a barn over at Rialto and has been taken over to the authorities at San Bernardino.

The still was twenty feet high and about six feet in diameter at the burner. There was also a preheater in which it is said the liquid was heated to about 150 degrees and then pumped into the still, it then being ready to boil. The capacity of the still is estimated to be about ten gallons per hour.

Officers stated today that it is probable arrests will be made within a short time, as they feel pretty certain they have the operators spotted.

They are thought to be members of a large bootlegging organization. The equipment taken here is all new and it is said the still operated less than twenty-four hours. Besides the still there were about seventy-five new five gallon cans found in the barn. A cesspool had been built on the premises, water piped into the barn and a partition built.

The certificate was presented to the Eighteenth Street association at its first meeting of the school year held last week, by Mrs. A. W. Burt, president of the Fifth district. Mrs. Burt also made an address at the meeting, telling of the seven cardinal objectives adopted by the national congress.

Louie Will Turn On Radio For All Fans

Louis Coshonois, proprietor of Louie's shoe shining parlor, is today looking forward to the world series baseball games and to the big football games with anticipation.

That is, he doesn't expect to see the world's series, or see many of the big grid games, but he does expect to make the best use of his radio set. Thinking of the others in the business district, he is going to turn his set on to the best advantage for those who care to come in the vicinity of his place and listen. He invites everyone to "listen-in" over his set.

Blacks Back From Voyage to Europe

After an absence of three months, Mr. and Mrs. James H. Black have returned from a very pleasant European trip. The greater part of the time was spent with relatives of Mr. Black in Scotland and with Mrs. Black's relatives in England. With the exception of some very warm days in England, when they had expected fogs, the Blacks found the climate very pleasant, especially so in Scotland. This was their first visit to their native lands since they left there in their youth and they found much pleasure in visiting the familiar scenes and in meeting relatives and friends.

The ocean voyages also were greatly enjoyed, both Mr. and Mrs. Black being good sailors, and they never missed a meal aboard ship.

Because of changing routes due to flood conditions, the Blacks reached home several days ahead of their scheduled arrival.

They are to be known as Thomas Alva and Eugene Howard.

Phillips Loses Permit 180 Days

Cleo Phillips, who lives just below the Santa Fe tracks, and who was arrested on a charge of reckless driving Aug. 16, was given a hearing in superior court yesterday, which resulted in his driver's permit being suspended for 180 days. The specific charge against Phillips was running over a Japanese, Juan Visaya, at Tenth street and Third avenue, in this city on Aug. 26, at which time Visaya was pretty badly battered up and most of his clothing torn off.

The Smudge Evil Is Preventable

The Covina Argus, whose editor has been in Southern California longer than this News Guy, has the idea that most of the smudge in citrus groves can be done away with during the winter and at the same time just as good results obtained with the judicious use of the proper kind of heaters. The Argus says:

Ninety per cent of the smudge from orchard heating is preventable. This should be a problem solved by voluntary action on the part of the orchardist, not through legislation. But if the orchardist does not act, the political subdivisions of the state will eventually act, and it is probable that any legislation enacted to curb the smoke evil will be too drastic, and therefore harmful to the orchard industry.

Smudge, in harmful excess, is caused by the use of poor types of heaters and the improper regulation of good types of heaters. Last year the greatest amount of evil came from the use of open garbage cans filled with crude oil and touched off on thousands of acres of new citrus property in the Cucamonga desert region. It is that kind of smudging that brings trouble and unwarranted attack upon the orchardists who are handling their heating in a progressive way.

Much smoke was created, also, by the orchardists who were late in lighting up at critical times, and opened their heaters wide and let them roar, creating a volume of smoke that not only didn't aid in heating the groves; not only cost the rancher an unnecessary amount of money in wasted fuel and ruined pots, but brought down the wrath of the harbor commissioners who faced a virtual blockade of shipping because of the impenetrable pall that made arrivals and departures of ships extremely dangerous. It incurred the wrath and disgust of the householders over Southern California, causing an incalculable damage to every kind of fabric.

This is a rancher's problem. It is no longer possible to say that there is no solution. Ninety per cent of the smudge evil is preventable. This is the time of year when the question should be confronted bravely and intelligently, and in a spirit of real cooperation.

Annual Eastern Star Officers' Dinner Given—

A courtesy extended annually to the officers of Upland Chapter, Order of Eastern Star, by the worthy matron and patron of the chapter and always looked forward to with pleasure by both the guests and the hosts, was enjoyed Friday evening when Mrs. Anna Brady, matron, and Verner H. Progressive Dinner Party Enjoyed by Girls' Class—

With the teacher of their class, Mrs. F. E. O'Brien, as hostess, girls of the intermediate department of the Presbyterian Sunday school, who are being promoted to the senior department, enjoyed a jolly party Friday night, the affair being a progressive dinner party that progressed merrily into the wee small hours. This class of girls will now have another teacher and the social affair was given by Mrs. O'Brien as a farewell to the class.

Leaving Upland in a group the merry party motored to Alta Loma, where at the home of Mrs. Arthur Bridge they were served with delectable cocktail and hot soup. Returning to Upland they stopped at the home of Mr. and Mrs. H. M. Guy on Euclid avenue to enjoy a delicious salad course. At the Elmer Mathews home, 607 Euclid avenue, an excellent meat and vegetable course was served, and from there the gay party progressed to the home of Mr. and Mrs. R. C. Norton, 793 Euclid avenue, for a delightful dessert.

The merry progression ended at the O'Brien home, 735 East Ninth street, where the girls enjoyed a slumber party, which does not necessarily mean that many hours were devoted to sleeping. A number of games were played and a shuddery time devoted to the telling of ghostly ghost stories and other favorite fireside pastimes. The next morning Mrs. O'Brien served her young guests with a tempting breakfast and they departed for their homes, quite happy over the success of their party.

Guests of Mrs. O'Brien and the assisting hostesses were Misses Ruth Mathews, Mary Kermott, Louise Norton, Gloria Foss, Esther Guy, Helen Guy, Mary Wilson, Barbara Bridge, Frances Ward, Evelyn Tesselle, and Lucile Mc Donald.

HOME OWNING on a Small Salary
IT MAY surprise you to know that fully half of the homes in this country are owned by men who make less than $2000 a year.
How do they do it? Through loans such as those made by this association. These loans are put upon a monthly repayment basis about like rent. Both interest and principal are included; one mortgage stays in force, eliminating costly renewals; never any large sum to meet. This is the one plan that helps you to get out of debt, easily, and over a period of years, it is distinctly cheaper.
We loan money to build or buy a great many homes which never WOULD and never COULD have been owned in any other way.
You can do it, too, if you are now paying rent regularly. Come in and let us tell you how.

Rules Define Days, Hours For Hunting

Summary of the sporting code in a folder issued by Roy Creighton specifies that it is always unlawful to "hunt waterfowl in districts 4, 4¾, 4a, 4e, 19, 20, 20a and 22, other than on Wednesdays, Saturdays, Sundays, legal holidays, opening and closing days, and that it is unlawful to hunt waterfowl in district 4a except between 8 a.m. and sunset."

This statement was given by Mr. Creighton to correct a recent article in the Upland News that it was unlawful to hunt any place before 8 a. m.

CHAFFEY ELEVENS POINT TO GAMES

Monrovia and Glendale Teams Coming Here For Grid Contests

Chaffey football looked different today and with two games scheduled for the local field this week, Upland followers of the grid elevens were getting set for a full week-end.

Redlands university, dopped to win, took a 7 to 0 defeat from Bert Heiser's Jaysee aggregation Saturday and the victory gave Chaffey football a dandy start for the season.

Side line views of the Saturday scrimmage showed that the Panthers have a formidable aggregation and that the line can hold and that the ball carriers can make the best of the openings.

"Zeke" Keough played only a few minutes against Redlands, but he was in long enough to heave a pass that netted the touchdown. A slight injury took him out. But without this much-touted athlete, the grid machine held its own.

As to Mitchell's aspirants in the high school ranks, there are some stars even though Fullerton won by a lone touchdown Friday. That game was a real battle and it showed powerful strength in the Tiger ranks.

Monrovia plays at Chaffey Friday afternoon.

Last night the gridders were going through some hard battles, and the same schedule is in order for tonight and tomorrow night. Mitchell is shaping up the loose operations and by Friday afternoon one of the best elevens ever to battle for Chaffey will be on the field.

Glendale junior college will send a threat here Saturday. By that time Heiser's men will be in the pink of condition and the already powerful team will be going strong.
